Termination or suspension of the Participation Conditions in respect of any API User for any reason will not affect any rights and/or obligations of any Participant which have accrued before such exclusion or suspension, or any provision of the Participation Conditions which expressly or by implication is intended to come into effect or to continue in effect on or after such exclusion or suspension.

14. Relief Events and Force Majeure

- 14.1 A Party will not be responsible for any delay in performing or failure to perform any of its obligations under the Participation Conditions if and to the extent that the delay or failure directly results from a failure of another Party to perform its obligations in accordance with the Participation Conditions.
- 14.2 Open Banking shall not be in breach of these Terms of Use nor liable for delay in performing, or failure to perform, any of the Open Banking Services under these Terms if such delay or failure result from events, circumstances or causes beyond our reasonable control.

15. Assignment and Sub-Contracting

- 15.1 The Participation Conditions are personal to each of the Parties. No Party other than Open Banking may assign, novate or transfer in any way, or charge the benefit of, any of its rights, liabilities or obligations under the Participation Conditions on a temporary or permanent basis to any third party.
- 15.2 Any API User may sub-contract the performance of any of its obligations and/or the exercise of any of its rights under the Participation Conditions to any third party, and may sub-licence the Open Banking Brand and the Documentation to such third party to the extent required to enable such third party to fulfil such Party's obligations, and exercise such Party's rights, in relation to the Open Banking Services. Each Party will be responsible for all acts and omissions of its sub-contractors (including any sub-sub-contractors) as if they were its own.

16. Relationship of the Parties

- 16.1 Each API User waives and releases Open Banking from any and all rights, claims, actions and/or causes of action (whether in contract, tort or otherwise) arising out of or in any way related to such API User's agreement to the terms of the Participation Conditions and/or such API User's performance of its obligations under the Participation Conditions.
- 16.2 Nothing in the Participation Conditions is intended to create, or will be construed as constituting or evidencing, a partnership or joint venture or relationship of employer and employee between any of the Parties or to authorise, or will be construed as authorising, a Party to act as agent for any other Party. Except where expressly so stated in the Participation Conditions, no Party has authority to make any representation for, act in the name or on behalf of or otherwise to bind any other Party.

17. Waiver

- 17.1 Any failure to exercise or any delay in exercising a right or remedy provided by the

Participation Conditions or at law or in equity (and/or the continued performance of the Participation Conditions) will not constitute a waiver of the right or remedy or a waiver of any other rights or remedies. If a Party waives a breach of any term of the Participation Conditions committed by the other Party (the "Defaulting Party") such waiver will not constitute:

- (a) a waiver of any other breach (of the same term or any other term) committed by the Defaulting Party; or
- (b) a waiver of the same or any other breach by any Party other than the Defaulting Party,

and will not affect the other terms of the Participation Conditions.

- 17.2 The rights and remedies provided by the Participation Conditions are cumulative and (except as otherwise provided in the Participation Conditions) are not exclusive of any rights or remedies provided at law or in equity. To the extent that any right or remedy provided by the Participation Conditions or in law or equity can be exercised more than once and/or in combination with other rights and/or remedies provided by the Participation Conditions or in law or equity, no single or partial exercise of such right or remedy prevents the further exercise of that right or remedy or the exercise of any other right or remedy.

18. Severability

- 18.1 If at any time a provision of the Participation Conditions is held by any court or administrative body of competent jurisdiction to be (in whole or in part) invalid or unenforceable, such invalidity or unenforceability will not prejudice the other provisions of the Participation Conditions (or the other parts of any provision which is found to be partially invalid or unenforceable) which will remain in full force and effect.
- 18.2 If any provision of the Participation Conditions is found to be invalid or unenforceable in accordance with Clause 18.1 but would be valid and enforceable if some part of the provision were deleted, the provision in question will apply with such modification as may be necessary to make it valid and enforceable.

19. Further Assurance

- 19.1 Each Party will at the request of the other Party at its own cost do (or procure others to do) everything necessary to give the other Party the full benefit of the Participation Conditions.
- 19.2 If there is an inconsistency between any of the provisions of these Terms and those of the Guidelines for Open Data Participants, the Complaints and Dispute Resolution Procedure, the Service Levels, the Standards or any other document forming part of the Participation Conditions from time to time, the provisions of these Terms shall prevail.

- 19.3 Any amendments or variations to these Terms shall be made by Open Banking in consultation with the API Users and no change or variation of these Terms shall be effective unless it is notified to the API Users through the Open Banking website.

20. Rights of Third Parties

Nothing in the Participation Conditions confers any benefit on, or is enforceable by, any person who is not a Party, whether under the Contracts (Rights of Third Parties) Act 1999 or otherwise.

21. Entire Agreement

- 21.1 Notwithstanding any entire agreement provisions in any (current or future) agreement between any two or more of the Parties, the Participation Conditions constitutes the entire agreement and understanding between the Parties in respect of the matters dealt with in it and supersedes any previous agreement between the Parties or any of them relating to such matters notwithstanding the terms of any previous agreement or arrangement expressed to survive termination.
- 21.2 Each of the Parties represents and agrees that in entering into the Participation Conditions it does not rely on, and will have no remedy in respect of, any statement, representation, warranty or understanding (whether negligently or innocently made) of any person (whether a Party or not) except as expressly set out in the Participation Conditions. The only remedy available to any Party for breach of the warranties will be for breach of contract under the terms of the Participation Conditions. No Party will be entitled to rescind the Participation Conditions (except for fraudulent misrepresentation).

22. Notices

- 22.1 All notices to be given under the Participation Conditions must be in writing and may be given personally, by prepaid first class post or in electronic mail unless otherwise specified in these Terms. Unless impracticable for technological reasons or otherwise required by Applicable Law, all notices given under the Participation Conditions will be given by email or in the case of Open Banking, through the Open Banking Website, but this will not affect the validity of any notice given in accordance with this Clause 22 by any other means. Notices given to API Users must be sent to the address or email address of each API User as specified from time to time in the Directory; notices to any API User must be marked for the attention of the recipient API User's Key Contact from time to time. Notices given to Open Banking must be sent to its registered office from time to time or to the email address expressly stated on the Open Banking website from time to time to be the email address for receipt of notices from API Users; notices to Open Banking must be marked for the attention of the 'Open Banking Limited Administrator'.

22.2 Any notice will be deemed to have been received:

- (a) if sent by e-mail, at the time the e-mail enters the intended recipient's information system (being the recipient's system for generating, sending, receiving, storing or otherwise processing electronic communications) provided that:
 - (i) no error message indicating failure to deliver has been received by the sender; and
 - (ii) an email will not be deemed to have been received if the recipient notifies the sender that it has not been opened because it contains, or is accompanied by a warning or caution that it could contain or be subject to, a virus or other computer programme which could alter, damage or interfere with any computer software or email;
- (b) if delivered personally, at the time of delivery; and
- (c) if sent by prepaid first class post or prepaid international airmail, on the expiry of 48 hours after posting if sent from and to an address in the United Kingdom,

in each case provided that if deemed receipt occurs before 9 am on a Business Day, the notice will be deemed to have been received at 9 am on that Business Day, and if deemed receipt occurs after 5.30 pm on a Business Day or on a day which is not a Business Day, the notice will be deemed to have been received at 9 am on the next following Business Day.

23. Terms Coming Into Effect

- 23.1 These Terms will be effective in respect of API Users when they first access the Open Banking APIs.
- 23.2 In participating in the Open Banking Services, no API User may specify any additional provisions, conditions or limitations to its participation and any additional provisions, conditions and/or limitations which are specified by any API User will be void and of no effect.

24. Governing Law and Jurisdiction

Each Party agrees that the Participation Conditions and the relationship between the Parties will be exclusively governed by and interpreted in accordance with English law and that all disputes arising out of or in connection with the Participation Conditions and/or the Open Banking Services, and/or with the negotiation, validity or enforceability of any provision of the Participation Conditions, and/or the relationship between the Parties in relation to the subject matter of the Participation Conditions and/or the Open Banking Services, (in each case whether or not regarded as contractual claims) will be exclusively governed by and determined in accordance
